

Sabah International Dairies Sdn Bhd

Sabah International Dairies Sdn Bhd

is a manufacturer of Ultra Heat Treatment (UHT) Milk, Low Fat Milk, Pasteurized Fresh Milk, Flavoured Milk, Recombined Milk, Full Cream Milk, fruit Juices and other beverage for both local and export markets.

It commenced operations in 1987 and has been a client of MIDF since 2007.

Equipped with state-of-the-art production facilities, the milk processing plant is located in the Kolombong Industrial Estate near Kota Kinabalu.

It produces and supplies pasteurized / Ultra-High Temperature (UHT) milk to:

- 1) selected Malaysian primary schools
- 2) Abbott Laboratories in Vietnam
- 3) other brands
- 4) mass market under its own brand – Daily Dairy

With MIDF's assistance, the company has been able to achieve higher productivity through the use of high

performance sophisticated machinery, notably the Ultra Heat Treatment (UHT) Tetra Pak Aseptic Filling and Packaging Lines. Its plant is the only one with such processing capability in Borneo.
