Land disposal in Johor

KEY INVESTMENT HIGHLIGHTS

- Land disposal in Johor
- Unlock value of landbank
- Stronger prospect for industrial development in Johor
- · Earnings forecast maintained
- Maintain NEUTRAL with a revised TP of RM1.63

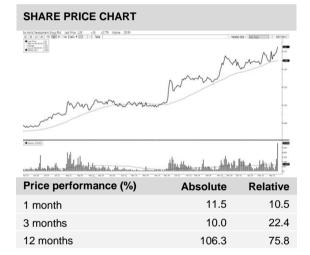

Land disposal in Johor. Eco World Development Group (Eco World) announced that its wholly owned subsidiary, Eco Business Park 6 Sdn Bhd had on 7th June 2024 entered into a conditional sale and purchase agreement (SPA) with Microsoft Payments (Malaysia) Sdn Bhd for the disposal of industrial land measuring 123.1acres located in Kulai, Iskandar Malaysia for a cash consideration of RM402.3m. The land disposal is expected to be completed in 2HCY25.

Unlocking value of landbank. The land measuring 123.1 acres that will be disposed is part of 403.78 acres landbank that Eco World acquired from IOI Properties Group on 18th January 2024. Recall that Eco World acquired 403.78 acres of land from IOI Properties Group for RM211m which translates into purchase consideration of RM12psft. Meanwhile, we view the land disposal positively as it unlocks the value of Eco World's landbank. The land disposal is expected to be positive to Eco World as land disposal to Microsoft Payments (Malaysia) Sdn Bhd is at price of RM75psf which should allow Eco World to record gains from the disposal. Nevertheless, we gather that Eco World would have to incur cost to build infrastructure, land conversion premium and earthworks.

Stronger prospect for industrial development in Johor. The land sale to Microsoft Payments (Malaysia) Sdn Bhd is expected to support development of Business Parks of Eco World in Johor as Microsoft Payments (Malaysia) Sdn Bhd proposed to develop data centres on the land. The setting up of data centres on the land is expected to increase demand for industrial products at Eco World's Business Parks in Johor. Note that Eco World is expanding its industrial property segment with sales from its Eco Business Parks contributing 24% to total new sales in the first four months of FY24. Meanwhile, the land disposal is expected to improve the balance sheet of Eco World. Net gearing is estimated to fall to slightly above 0.2x from 0.28x as of 1QFY24.

Maintain NEUTRAL with a revised TP of RM1.63. We maintain our earnings forecast for FY24F/25F/26F. We revise our TP for Eco World to RM1.63 from RM1.51 as we narrow our RNAV discount to 30% from 35% in view of better prospect for its Business Parks in Johor. We opine that valuation of Eco World is fair at this level, trading at slightly above its latest NTA of RM1.63 per share. Hence, we maintain our NEUTRAL call on Eco World.
