KEY RISKS

Specific risks associated with this product:

Market Risk	Market risk refers to potential losses that may arise from changes in the market prices of the Fund's investments. The prices of Shariah-compliant securities that the Fund invest in may fluctuate due to various factors, for example, events or news relating to the general market or economic conditions. Such movements in the prices of Shariah-compliant securities will cause the prices or NAV of the Units to fluctuate.
Securities Specific Risk	Any fluctuation in the value of Shariah-compliant securities in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company may affect the price of Units. The impact is however mitigated by the Fund investing in a wide portfolio of Shariah-compliant investments, thus spreading the element of risk.
Liquidity Risk	This risk refers to the ease with which the Fund's investment can be sold at a favourable price. Should the Fund's investment become illiquid, it may be sold at an unfavourable price which may then lower the value of the Fund's investments and subsequently the value of Unit Holders' investments.
Reclassification of Shariah Status Risk	This risk refers to the risk that the currently held Shariah-compliant equities in the portfolio of the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the SACSC or the Shariah Adviser. If this occurs, the value of the Fund may be adversely affected where the Manager will take the necessary steps to dispose of such equities in accordance with SACSC's resolutions and guidelines. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities.
Shariah-Compliant Equity Risk	The performance of the Shariah-compliant equities held by the Fund is also dependent on company specific factors like the company's business situation. If the company-specific factors deteriorate, the price of the specific Shariah-compliant equity may drop significantly and permanently. Such event could possibly occur even in a positive Shariah-compliant equity market trend. The risk will be managed via portfolio diversification of the Fund's investments in terms of its exposure to equity from various industries, sectors and countries. In addition, where necessary, exposure to a particular Shariah-compliant equity will also be reduced in the event of an anticipated weakness in that particular Shariah-compliant equity.
Regulatory Risk	Any changes in national policies and regulations may have an effect on the capital markets in which the Fund is investing. If this occurs there is a possibility that the value of Unit Holders' investments may be adversely affected.
Shariah-compliant Equity-related Securities Risk	The value of the Shariah-compliant equity-related securities depends on the value of the underlying equities that the Shariah-compliant securities are related to. Any upward movement in the value of the underlying Shariah-compliant equities may result an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund. The Fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrant, that have an expiry date and may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.

Note: If your investments are made through a distributor (i.e. the institutional unit trusts advisers via a nominee system of ownership), you would not be deemed to be a Unit Holder under the deed and as a result, your rights as an investor may be limited if you are investing through a distributor. Accordingly, we will only recognize the distributor as a unit holder of the Fund and the said distributor shall be entitled to all the rights conferred to it under the deed.
